HUERTA FORCES CLAIM VICTORY

Say Rebels Lost About Five Hundred Men.

FEDERAL CASUALTIES UNKNOWN

Column of Insurgents Is Reported to Have Been Utterly Routed in Battle About Midway Between Laredo and Monterey—Rebels Leave Large Quantities of Arms, Ammunition and Supplies Behind in Their Flight.

Laredo, Tex., Mex., March 17.—Decisive defeat of a column of Constitutional troops, en route, it is believed, to take part in the proposed attack on Monterey, Mex., at Bustamante canyon, is reported in official advices received at federal headquarters at Nuevo Laredo.

The rebels were routed utterly, according to the dispatch, with a loss of about 500 men killed, captured or wounded.

The federal losses were not stated. Bustamante canyon is about midway between Laredo and Monterey.

In their flight the Constitutionalists were said to have left behind large quantities of arms and ammunition and the federalists claimed the capture of many wagons, carrying arms and supplies, and 100 loaded pack animals.

The rebels, reported to be part of those marching against Monterey, were moving toward Morales, Nuevo Leon.

General Quintana, with 1,200 federal troops, was reported en route to Nuevo Laredo to take command of the garrison there, and General Guardiola, who with a large federal force is marching overland to attack Matamorosa, across the boundary from Brownsville, Tex., was reported near Guerrero.

The greater number of the rebel troops stationed at Matamorosa was withdrawn to take part in the campaign against Monterey.

SOLDIERS PATROL BORDER

Martial Law Follows Murder of California Postmaster.

San Diego, Cal., March 17.—Martial law existed in effect along the border for miles each side of Tecate, Cal., although no proclamation was issued, following the destruction by fire of the general store containing the United States postoffice and custom office and the murder of Postmaster Frank Johnston Saturday night by three men declared to be Mexicans.

The border was patrolled by American troops from Fort Rosecrans. Across the line not many hundred feet Mexican rurales performed guard duty.

Every man within a radius of ten miles of Tecate is armed and rifles and ammunition have been ordered from this city.

Governor Hiram W. Johnson was asked to make formal demand upon Governor Francisco Vasquez of Lower California for the delivery of the Mexicans suspected of having killed Johnston.

ENDORSE WILSON'S POSITION

Twenty-three Governors Express Views on Tolls Question.

Washington, March 17.—The New York World printed telegrams from twenty-three governors on the Panama tolls question. Most of them favored the president's position. Democratic governors replied that they were in doubt. Governor Eberhart of Minnesota said:

"The president and congress undoubtedly have information which would make them better qualified to pass on the canal proposition than one from the outside. For that reason I would not care to express an opinion."

Governor Hanna of North Dakota replied that the United States dug and paid for the canal and American shipping should be given the preference in the way of tolls.

EIGHTY-THREE PERISH IN JAP EARTHQUAKE.

Tokio, March 17.—Eighty-three persons, according to the official estimate, were killed by the earthquake Sunday in the prefecture of Akita, Island of Honshu. Five hundred persons were injured and many are missing.

Eyewitnesses declare entire families were crushed to death.

RECORD VERDICT AFFIRMED

Federal Supreme Court Upholds Fine of \$45,000.

Washington, March 17.—One of the largest verdicts ever recovered by the government for a violation of the alien contract labor law—that for \$45,000 against the Grant Brothers' Construction company, a California corporation—was affirmed by the supreme court.

Through its representatives the company participated in bringing into the United States forty-five Mexicans to work on railroad construction near Naco, Ariz.

REPORTS BLAME BOTH CAPTAINS

Inspectors Disagree Regarding Sinking of Monroe.

NEXT MOVE IS UNCERTAIN

Charges Against Captain Berry of the Nantucket Included Negligence in Not Reducing Speed of His Vessel in a Fog—No Charges Were Filed Against Captain Johnson of the Monroe.

Philadelphia, March 17.—The two United States local inspectors of steam vessels who investigated the disaster off the Virginia coast on Jan. 30, in which the steamship Nantucket rammed the steamer Monroe, causing the loss of forty-one lives, rendered a divided opinion. One held the captain of the Nantucket was guilty of negligence and the other charged the commander of the Monroe with responsibility for the disaster.

It is not known here what the next step will be, but it is believed Henry M. Seeley, the supervising inspector at New York, will consult the department of commerce at Washington before making any further move.

The local inspectors who investigated the collision are Captain R. A. Sargent, inspector of hulls, and D. H. Howard, inspector of boilers. The department of commerce designated them to investigate the charges against Osmyn Berry, captain of the Nantucket, brought by the local inspectors at Norfolk after a preliminary examination.

The charges against Captain Berry included negligence in not reducing the speed of his vessel in a fog and with neglecting to ascertain through the wireless operator the proximity of other vessels. No charges were brought against Captain Edward E. Johnson of the Monroe.

Exonerates Captain Berry.

The opinion filed by Inspector Sargent says that Captain Berry and all other licensed officers of the Nantucket are exonerated from all blame.

Captain Sargent's report then charges Captain Johnson with incompetency, negligence and inattention to duty. Captain Johnson is charged with the violation of the international rules for preventing collisions in giving a wrong whistle signal in the fog; with the negligence and inattention to duty because he took no action to prevent the collision or to lessen its force when the vessel came in sight and unskillfulness because proper discipline or organization was not maintained among the crew in an effort to protect the lives of all persons on board and because no proper effort was made promptly to obtain assistance from the Nantucket.

Inspector Howard refused to sign this report and rendered one of his own in which he found Captain Berry guilty of failing to reduce speed in a fog as charged, but not guilty of alleged failure to use the wireless apparatus, and recommends that his master's license be revoked.

HANNA SIGNS REQUISITION

Prosecution Scores Point in Alleged Bribery Case.

Grand Forks, N. D., March 17.—With Governor Hanna's action in granting the application of Grand Forks' authorities for requisition papers on the governor of Oregon for delivery of McLain Cooper, under arrest at Hood River, Ore., to North Dakota authorities, the prosecution won the first round in the fight centering about the attempt to convict six men of bribery in connection with the acquittal of McLain Cooper of murder in Grand Forks two years ago.

Governor Hanna held that the filing of the complaint and warrant, directed against Cooper, were sufficient on which to base the requisition. Cooper's attorneys maintained that the prosecution should be compelled to make a further showing. Young Cooper's next fight will be before Governor West of Oregon.

The desire of the Coopers to avoid service of papers in the \$50,000 damage action against them, started by Mrs. Charles Ross, widow of the man Young Cooper killed, will be one of the main points on which the fight will be waged.

ENGLAND IS SWEEP BY GALE

Wind Attains Velocity of Seventy Miles an Hour.

London, March 17.—A cyclonic gale swept over the United Kingdom from west to east. The wind reached a velocity of seventy miles an hour and the gale lasted twelve hours. Many vessels were driven ashore.

A tug foundered in the Thames, with the loss of five lives. The big Dutch steamer Noordwijk is disabled off the Isle of Wight.

KING GEORGE V.

English Ruler Sees an Exhibition of Sparring.

KING GOES TO PRIZEFIGHT

English Monarch Sees Wells and O'Keefe in Fast Bout.

London, March 17.—King George attained the distinction of being the first reigning British monarch to see a public boxing bout.

As the guest of the Second Life Guards he was entertained at a boxing and fencing tournament at the Regent's Park barracks. Bombardier Wells, the former British heavyweight champion, and Pat O'Keefe of Ireland gave a fast exhibition of sparring and several clever amateurs also took part in bouts.

INDIGNANT WOMAN KILLS FRENCH EDITOR

Resents Attacks on Her Husband in the Figaro.

Paris, March 17.—Gaston Calmette, editor of the Figaro, was shot by Mme. Henrietta Caillaux, wife of Joseph Caillaux, the French minister of finance. He died in a few hours.

Mme. Caillaux went to the office of the Figaro to carry out an act of vengeance against M. Calmette, who had been waging a bitter campaign against the minister of finance. She fired at least three times. M. Calmette being wounded in the chest, in the side and the abdomen.

While the editor was being transported to the hospital he said repeatedly:

"I have done my duty."
Having committed the deed Mme. Caillaux submitted to arrest and while employees in the Figaro office were taking the pistol from her hands she said:

"Since there is no justice in this country I take upon myself an act of justice. Take me where you will."

Mme. Caillaux was removed immediately to a police station where she underwent a preliminary examination.

SOUTH DAKOTA LAW VOID

Federal Supreme Court Kills Double Damages Act.

Washington, March 17.—The supreme court declared unconstitutional the South Dakota law of 1907, which provides for judgment for double damages in certain cases. The decision was announced in the case of the Milwaukee railroad against C. B. Kennedy, involving a claim for damages for property destroyed by fire caused by sparks from a railroad engine, the jury rendering a verdict for \$100 and judgment was entered for \$200. Chief Justice White, who delivered the opinion, stated that similar laws of other states had been declared unconstitutional and those decisions would be followed in the South Dakota case.

DR. EDWARD S. HOLDEN DIES

Astronomer, Scientist and Educator Succumbs at West Point.

West Point, N. Y., March 17.—Dr. Edward S. Holden, famous as an astronomer, scientist and educator and librarian of the United States military academy since 1902, died here. He was sixty-eight years old. From 1885 to 1888 he was president of the University of California and for ten years after that director of the Lick observatory.

Dr. Holden was author of a score of books, most of them on astronomical subjects. Denmark made him a knight of the Order of the Dannebrog and Germany made him a knight commander of the Ernestine Order of Saxony.

Before going to California he was director of the Washburn observatory in Wisconsin from 1881 to 1885.

Imperator in Heavy Sea.

Hamburg, March 17.—The Hamburg-American liner Imperator, which left Hamburg March 11 for New York, ran into a heavy gale and lost four of her lifeboats, according to officials of the line. The ship behaved well and few of the passengers were aware of what had happened.

WAR FEVER MAY YET BE AROUSED

Republican Tells of the Political Side of Situation.

G. O. P. BACKS PRESIDENT.

In Sympathy With Wilson's Policy, but Atrocities May Force Intervention—Government Is Going to Spend Many Millions For Good Roads—Organizations Disagree.

By ARTHUR W. DUNN.

Washington, March 17.—[Special.]—"We may create a condition similar to that which preceded the Spanish war," said a Republican member of congress. "At that time the Republicans, save a small bunch called 'insurgents,' were standing with President McKinley opposing war with Spain. The Democrats were nearly all for war, and they and the minority Republicans finally forced through the war resolution. Most of the Republicans have refrained from trying to bring about a war with Mexico, but conditions there may make it inevitable."

Just as this man sees the political end of the situation, it is a fact that the serious condition existing in Mexico is being painted in vivid colors by different writers. That is the way it happened in Cuba, and the country became aroused and was behind the movement for the war with Spain. It may be that the country will get the war fever in regard to Mexico if the publication of the atrocities that have so long torn portions of that benighted country continue.

The Road Contest.

With the prospect that the United States government is going to expend a great many million dollars every year on roads there has developed a vigorous contest between two road systems. There is the "dirt road crowd" and the "peacock boulevard crowd." That is the way they have been divided up by discussion on the subject. With the latter is identified the "old trails" organization, which is pushing a plan to have all of the famous old trails that were used in the development of the country made into national highways. In such a contest as this it is rather likely that the "dirt road crowd" will win, as they ask for the expenditure of the government money in rural communities and among the farmers.

How to Get the Money. Congressman Shackelford of Missouri, who is at the head of the "dirt road statesmen," was talking with Congressman Humphreys of Mississippi regarding money for roads.

"Charge an additional tax on cigars and add 3 cents a gallon on beer and you will get all the money necessary for building roads," said Humphreys.

"If we should take the money that we are spending on the Mississippi river we could build all the roads necessary in that region," remarked Shackelford.

"You won't need any roads if you do that," interposed Humphreys. "A little jaunt in a carriage with plumes for you if you undertake to get our Mississippi money."

"Well," declared Shackelford, "you people have been getting just what you want, and there is as much reason for spending money on roads as on rivers."

Kahn's Choice.

During discussion of the army appropriation bill Congressman Kahn of California declared that it would be fatal to American interests to have any alliances with European countries concerning any feature of American affairs. He was asked if in event of war with Mexico he thought we should make South American alliances rather than European. He declared that he would infinitely prefer to have the cooperation of the Latin-American countries than to allow a single European nation to co-operate with the United States. That remark evoked a good round of applause from members of the house.

Postoffice Expert.

Senator Bristow is credited with being the best informed man in the senate on postal affairs. His long service in the postoffice department, and the study he has since given the question gives the Kansas senator a great deal of knowledge about the subject. "I ought to know something about it because I have given enough time to it." He has always been ready to answer every phase of every question pertaining to the service.

Hours For Congressmen.

During the discussion of the bill limiting to eight hours a day work for women in the District of Columbia Congressman Lafferty was making a speech and asserted that eight hours is long enough for anybody and that it was much longer than any member of the house would continuously apply himself to work. "Speak for yourself," interjected Jim Mann, who is supposed to work nearly eighteen hours out of the twenty-four. Mann added that he would be glad to put his health up against the health of the Oregon man.

"I would be willing to pose for a photograph with the gentleman from Illinois at any time," asserted Lafferty, which was somewhat amusing, as Mann is the Republican leader and Lafferty is a radical Progressive.

AGED WOMAN DEFIES COLORADO MILITIA

"Mother" Jones Declares She Will Return to Trinidad.

Denver, March 17.—"I will go back to Trinidad before the end of this week." This was the declaration made by "Mother" Jones, eighty-two-year-old leader of the striking coal miners, who was released from the Trinidad hospital, where she had been a military prisoner, and brought to Denver.

The blue eyes of the little, white haired old woman flashed through the heavy lenses of her gold bowed spectacles as she delivered her defiance to the civil and military authorities of Colorado. The old fashioned black bonnet perched awry on her white hair bobbed in energetic emphasis.

"Yes, I shall go back to Trinidad," "Mother" Jones continued. "If they do not arrest me at once I will go to the strikers' tent colonies and take up my work where I had to drop it two months ago when the militia locked me up. I shall go ahead caring for the wives and children of the strikers and encouraging the men in their resistance to tyranny and robbery by the coal operators who own Southern Colorado."

WILSON ENDORSES BILLS

Approves Substance of Four Anti-Trust Measures.

Washington, March 17.—President Wilson at a conference with the house judiciary subcommittee on trusts put the stamp of administration approval on the substance of the four bills to amend the anti-trust laws which the committee submitted in a practically final form.

There will be another conference at the White House within a week and members of the committee expect that all four bills to strengthen the Sherman law, covering interlocking directorates, holding companies, trade relations and definitions of restraints of trade, will be reported to the house within a fortnight.

President Wilson indicated his belief that it would be better to consolidate all the bills into one to expedite legislation. That this will be effected is practically certain.

FOUR KILLED IN A CAVEIN

Laborers Buried at Bottom of Twenty-Foot Trench.

Fairmont, W. Va., March 17.—Four men were killed when they were buried beneath tons of earth by the caving in of the sides of a deep trench being dug for the Baltimore and Ohio railroad at Paw Paw, W. Va. The men were at the bottom of the twenty-foot trench.

TAFT VISITING IN TWIN CITIES

AFFAIRS NEAR A CRISIS

President Will Not Interfere in New Haven Negotiations.

Washington, March 17.—After several months of negotiations the crisis in the affairs of the New Haven railroad system, so far as it may be affected by the department of justice, probably will be reached during the present week.

The New Haven virtually has agreed to every demand for the disposition of its subsidiary properties made by the department and the success or failure of the whole plan now depends largely upon the report of T. W. Gregory and Jesse Adkins, assistants to Attorney General McReynolds.

It came apparent more than ever that only an agreement between the railroad and the department can keep the case out of the courts. Senator Weeks called at the White House and urged President Wilson to interfere to bring about a quick settlement. Later it was said the president will not interfere.

WILL PUNISH BOY SMOKERS

Cigarettes Make Juvenile Delinquents, Says Judge at Marinette.

Marinette, Wis., March 17.—A campaign to prevent cigarette smoking among boys in Marinette was launched by Judge A. E. Davis of the county court, who asserts that juvenile offenders invariably smoke and that smoking alone is responsible for a big percentage of juvenile crime.

The judge purposes to punish all cigarette smokers brought before him even if he is obliged to hand out thirty-day sentences, which is permissible under Wisconsin law.

He will ask District Attorney Miller to co-operate with him and prosecute all tobacco dealers who violate the Wisconsin law which prohibits the sale of cigarettes except in original packages.

KILLED BY AN ELEVATOR

David Hawkins Crushed to Death in Hotel at Aberdeen.

Aberdeen, S. D., March 17.—David Hawkins, aged about forty-eight, was instantly killed in a private elevator at the Sherman hotel. He was painting about the hotel for his employer and attempted to go to the second story by the private elevator. The elevator was in the basement and Hawkins reached through to start it. The ascending elevator caught him across the chest and crushed him to death.

Former President Glad to Be Free of National Cares.

REFUSES TO DISCUSS ISSUES

In an Address at the University of Minnesota on the Anti-Trust Law Professor Taft Announces That in His Third Lecture He Will Try and Show the Federal Supreme Court's "Rule of Reason" Opinion Was Not a Backward Step.

Minneapolis, March 17.—During a day of strenuous activity William H. Taft convinced a great many people that being a former president is about the most satisfying job on earth. Certainly no man could display more of the symptoms of a happy boy out of school than the former president evidenced. Repeatedly he expressed the sentiment that he is beginning to feel how really glad some it is to be free of national cares and his actions backed up his words.

Without any apparent trepidation the former president faced a five days' campaign of strenuous duties, involving more than a dozen luncheons and as many speeches. The only addresses prepared in advance are the lectures at the University of Minnesota.

The first thing Mr. Taft made clear was that he would maintain absolute silence on questions of present national policy.

Not a word would he say as to the canal tolls problem or on the Mexican question. "These are delicate questions," he said. "The national government is handling them. They ought not to be lightly or carelessly discussed."

Talks on Anti-Trust Law.

After attending Judge Willard's funeral the former president appeared at the University of Minnesota, where he delivered the first of his addresses on the anti-trust law to an audience of about 300, most of them members of the law school.

"I have found the greatest pleasure in my legal lectures and I trust that I may be rendering a real service to my country in this way," he said before he began his talk.

His opening lecture was merely preliminary, consisting of a resume of the common law status of combinations in restraint of trade. He took no sides, expressed no opinions on the questions raised, but contented himself with laying a foundation of his historical procedure for his future talks.

His most interesting statement was that in his third lecture he will discuss the recent decisions of the United States supreme court and show that, contrary to popular belief, the court's much discussed "rule of reason" was in no sense a backward step and that the court did not in that decision depart from the principles of the common law.

On the stage when Mr. Taft delivered his lecture were the members of the state supreme court, Judge Page Morris of the federal court, the university regents, President G. E. Vincent and Presidents Emeritus Northrop and Folwell.

SHOT AND ROBBED BY THUGS

Woodsman Visiting in Minneapolis May Die of Injuries.

Minneapolis, March 17.—Michael Ward, a woodsman from Donald, Wis., was shot and robbed by two masked highwaymen half a block from the home of his sister, Mrs. A. West. Ward was taken to the City hospital with but a slight chance for recovery. A shot fired by one of the highwaymen entered his right eye.

At a dark spot he was accosted by two masked men. He pushed one of them aside and the other struck him with a club. Then the first man drew a gun and fired the bullet which entered Ward's right eye. Fifty-five dollars was taken.

FIGHT CENTERS ON SENATOR

John Aylward, Democrat, First to Announce Candidacy.

Milwaukee, March 17.—The United States senatorial question in Wisconsin, which involves a primary election this fall, is complicated by the problem of whether Senator Isaac Stephenson, more than eighty years old, will again be a candidate. He refuses to settle the question.

The first formal announcement of candidacy is that of John A. Aylward, a Democrat. It is also rumored that Governor McGovern will be a leading candidate for the senatorship, as will Lieutenant Governor Thomas Morris of La Crosse.

A Benton county game warden has filed for the legislature. Under ordinary circumstances if a game warden is a hustler he is in no position to run for public office, especially if he has opposition.

An 873,000 acre farm in Mexico, with some excellent mahogany and pine timber and some mineral deposits, does not seem to be tempting at 30 cents an acre. Present prospects are not inviting rapid immigration to that country even at cut rate property advertisements.

Under the new ruling of the post-office department, which went into effect the 16th, books are now accepted for transmission by parcel post. The rates are the same as on other articles, except that books weighing eight ounces or less are to cost one cent for each two ounces or fraction thereof.

Charley Scheers, of Akeley, is listening to the call of the wild and the many pretty things the newspapers are saying of his senatorial boom. Bro. Scheers' newspaper training ought to fit him for the position to a T, and all it lacks now is his consent. The newspapers boys all over the state would vote for you, Charley, if they had the opportunity.

The Stillwater Mirror in its new form has arrived at that period in newspaperdom when it is recognized as one of the brightest and best weekly publications in the state. Its field, of course, is not as extensive as its many competitors throughout the state but the most is made of conditions as they exist, and many a publisher with liberty and the world at large at his command can well take lessons from the paper published within the walls of the Minnesota state prison at Stillwater. It was started 27 years ago and is the oldest prison paper published, and the best, being six columns in size and filled with interesting reading, not only

to the inmates of the prison but to the public at large. The motto of the paper is "It is never too late to mend."

Every office seeker is to be given a fair chance and a square deal by the Stillwater Gazette—at regulation rates and no discount. Candidates are requested to bring their check books or cash with them when visiting that office. There is some class to that statement. If politicians paid for the boosting their newspaper friends do for them they would go broke, and if the newspapers did not take up their cause no one would know they were on earth—politically. There are men who desire public office, however, who question the right of a newspaper to charge for a political announcement over signature and it is these fellows who are due for a jolt.

"For the Wearing of the Green"

A Wonderful Irish Feature—A Drama that will hold you spellbound

Paddy Dyer, the Irish blacksmith, and his helper, Dennis Grady, who is also his daughter Norah's sweetheart, are the prime leaders in the conspiracy against the Crown. Michael Finn, a young chap about the age of Dennis, is also concerned in the movement, together with a number of Irish patriots. Michael drinks to freely one day and calls upon Norah. She resents his attentions and Dennis arrives in time to find her in the embrace of Michael; he gives him a good beating. A company of English soldiers has landed in the town and the Colonel posts a notice of reward for the capture of Paddy and Dennis. To avenge himself, Michael informs the Colonel, on shipboard, of a meeting that is to take place at the Dwyer home that evening, to which Dennis and a number of Irish patriots are invited. They put Michael to bed on shipboard after giving

him something to drink. He has a very disturbing dream about the result of his act and awakens only to be filled with remorse at the betrayal of his friends. He jumps overboard, swims to shore and manages to reach the home of Dwyer, nearly exhausted, just ahead of the English troops, but too late to enable them to escape. A fierce encounter ensues after the priest and Norah are permitted to leave the cottage. The soldiers fire the thatch roof, the Irishmen fighting valiantly until their ammunition is gone. Michael is severely wounded. He suggests that he open the door, allow the soldiers to use him for a target and in the meantime Dennis and Dwyer can escape. This is done. Norah has warned the patriots of the attack and they come to the rescue, routing the soldiers. Michael dies surrounded by his friends, they ignorant of his perfidy.

83 CARS OF GRAVEL ORDERED

Council to Have City Forces Load up from Ahren's Hill, Shipping on M. & I.

TO BE USED AT THE CITY HALL

Liquor License is Granted to John Hughes—Labor Payroll on Fill to be Insured

The city council had a short meeting on Monday evening, adjourning to Wednesday evening, March 18.

All the aldermen were present except Alderman Anderson. On motion, eighty cars of gravel were ordered to be shipped from Ahren's hill on the Minnesota & International railway and unloaded in the city at the most convenient place for the city hall construction. The gravel is to be loaded by the city forces.

The labor payroll on the Northeast Brainerd bridge fill is to be insured under the provisions of the workmen's compensation act. This matter was left to the committee on property and city printing to act in conjunction with the city engineer.

The council granted the liquor license application of John Hughes.

Obituary

Mrs. Charlotte Mudge died at the home of her daughter Mrs. Alvin Eastman Sunday afternoon. Old age was the cause of death. March 25th she would have been eighty-six years old. For the past few months she suffered greatly—death was her only relief.

Mrs. Mudge is survived by one son, Charles Mudge, of Northeast Brainerd, and one daughter Mrs. Eastman, 204 Bluff avenue. There are also five grandchildren.

Mrs. Mudge came to Minnesota forty years ago with her husband. They lived for a number of years at Anoka, from there they came to Brainerd. For twenty-six years she has lived here. Six years ago her husband died. At the time of his death they had lived together sixty years.

The funeral was held this afternoon at the home of her son, 1012 6th avenue Northeast. Many friends were present to pay their last tribute of love to her. Rev. W. J. Lowrie of the Presbyterian church, officiated.

Church Social

The Presbyterian Social Club meets this evening at the home of Mr. and Mrs. J. A. McKay, 518 South Broadway. A St. Patrick's day program will be given under the direction of the Sabbath school class of Mrs. McKay's. The following is the program:

Piano Solo. Ethel Brandt
Vocal solo, "Where the River Shannon Flows" Harry Kroes
Vocal Solo, "My Wild Irish Rose" Will Anderson
Reading Gladys Alger
Vocal Solo, "Country Mayo" Dorothy Baker

BAD BUSINESS PROPOSITION

Anti-Saloon League Speaker Thinks Saloons are Destructive Not Constructive

Mr. M. Martinson who spoke last Sabbath under the auspices of the Minnesota Anti-Saloon league, was for three years secretary to Congressman Lindbergh. His time is now wholly employed by the league.

His speech last Sunday evening at the Seventh Street Lutheran church bore traces of his earlier experiences on the stump. He arraigned the saloon as a destructive force. He affirmed that if it had a constructive purpose it would be worthy of respect but it was destructive and altogether destructive. The business man has nothing to gain but much to lose from its presence. He quoted specific cases to help prove his contention that it was all nonsense that the saloon helped business. Bar deposits, grocery and clothing house sales, in fact all legitimate lines of business were stimulated and increased in "dry" towns.

The vast burden of the saloon upon any town is too heavy to bear, either the town must suffer inevitable loss, perhaps amounting to bankruptcy, or the saloon must go. The "old-man-of-the-sea" was not more heavy upon the shoulders of Sindbad than the saloon is upon the shoulders of the towns that suffer.

Moorhead and Fargo were spoken of as an illustration of a "wet" and "dry" policy. If the "saloons helped a town" Moorhead ought to be a pride and a place of beauty. The reverse is true. Moorhead is the capitol of Fargo is a moral reproach upon Minnesota. Fargo is famed as the fairest little city in northwest America.

The speaker said that it was not sentiment but business that was making the state "dry." The twenty-five per cent increase of the last village elections was due to a wiser and better business policy on the part of the people of the state.

Mrs. Gannon

The "Musical Leader" commends most heartily the artistic singing of Mrs. Gannon who will give a recital in Elks hall on March 30. A recent number contains the following: "Altho Mrs. Gannon has just returned from a long and arduous trip, the fatigue attendant thereon was not noticeable for her luscious voice never sounded to better advantage. She is an artist whose progression during the past ten years has been constant. Her voice has gained in depth and volume and at the same time has not deteriorated in quality, while interpretively she has gained tremendously until at the present time she stands equipped as one of the most satisfactory artists on the concert platform."

MANDAMUS CASE ARGUED

Arguments of City Attorney Haggard and Attorney M. E. Ryan Before Judge Stanton

HEARD IN COURT CHAMBERS

Judge Stanton Takes the Light & Power Mandamus Case Under Advisement Yesterday

In district court chambers Monday afternoon before Judge Stanton, of Bemidji, was heard the mandamus case brought by the Light & Power company against the city clerk, V. N. Roderick, wherein the latter was ordered to correct the notation placed by him on Ordinance No. 259, showing the time when the same was presented by him to the mayor of the city of Brainerd, to conform to the truth and the facts, with a further demand that the so-called gas ordinance be published as required by law.

City Attorney Haggard argued that presenting the ordinance to the mayor at eleven o'clock on Monday evening, February 2, should not be considered a presentation on account of the late hour; that when the city clerk voluntarily received the ordinance back it rescinded the first action; that when Mayor Henning returned the ordinance it was returning it within the five days' limit.

In arguing that the mayor had returned the ordinance because he wished to confer with the city attorney who was not due to return to Brainerd until February 7, the court held that the motive in returning the ordinance was not to be taken into consideration.

Attorney M. E. Ryan cited numerous cases bearing out what a presentation was and that if a governor had the power to delay presentation he might be in a position to delay legislation. He drew the distinction between presentation and reception.

Judge Stanton took the case under advisement and an opinion may be expected within a short time.

RUB PAIN FROM BACK ALL BACKACHE GONE

Dispatch Gets Credit for Longest Sentence in Perfectly Good English in Recent Years

The Superior Telegram contains the following regarding a comment in the New York Sun of an article which recently appeared in this paper:

The New York Sun gives the Dispatch of Brainerd, Minn., credit for containing the longest sentence in perfectly good English seen in recent years. It quotes the sentence, which contains 218 words. Surely that is much better than a long sentence in jail. After the quotation the Sun says: "No panting, no asthmatic wheeze; the lungs are not winded; the athlete arrives at the goal in the pink of form—an admirable performance."

WHEN YOU'RE SICK YOUR WAGES STOP

You know what that means—misery—worry—big bills—debt!

You know you can't afford to get sick. Keeping in good health means food and clothing for you and your family. It is up to you to take care of yourself. It is up to you, whenever you don't feel right, to take something to make you right, to strengthen you, build you up, ward off worse sickness—protect you and your family. That thing we have in Rexall Olive Oil Emulsion. In offering it to you, we protect you against money risks, by personally promising you that, if it does not restore your health, we will give back your money without word or question. We believe it is the best builder of health, energy and strength you can get. It is helping many of your neighbors. If it don't help you, we will give back your money.

Rexall Olive Oil Emulsion is composed principally of pure Olive Oil and the Hypophosphites. Each has long been endorsed by successful physicians. Here they are for the first time combined. The result is a remarkable nerve, blood and strength-building remedy that is both food and medicine. For all who are nervous, run-down and debilitated—no matter what the cause; for old people; for convalescents; for puny children, we know of nothing that will give health and strength as quickly as Rexall Olive Oil Emulsion. It is a real builder of good blood, strong muscles, good digestion. Pleasant to take, it contains no alcohol or habit-forming drugs. If you don't feel well, economize both money and strength by beginning today to take Rexall Olive Oil Emulsion. Sold only at the Rexall Stores, and in this town only by us. \$1.00.—Johnson's Drug Store.—Adv. t.

CLEANSER YOUR HAIR
MAKES IT BEAUTIFUL

It becomes thick, wavy, lustrous and all dandruff disappears—Hair stops coming out

Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—Advt.

Keeps Your Stove
"Always Ready for Company"

A bright, clean, glossy stove is the joy and pride of every housekeeper. But it is hard to keep a stove nice and shiny—unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish sticks right to the iron. It doesn't rub off or dust off. Its shine lasts four times longer than the shine of any other polish. You only need to polish one-fourth as often, yet your stove will be cleaner, brighter and better looking than it has been since you first bought it. Use

BLACK SILK STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it better than any other stove polish you have ever used before, your dealer is authorized to refund your money. But we feel sure you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE
ONE QUALITY.

Be sure to get the genuine. Black Silk Stove Polish costs you no more than the ordinary kind. Keep your grates, registers, fenders and stove pipes bright and free from rusting by using **BLACK SILK AIR-DRYING ENAMEL**. Brush free with each can of enamel only.

Use **BLACK SILK METAL POLISH** for silverware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.

The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

For weak stomachs and the indigestion or dyspepsia resulting, and the multitude of diseases following therefrom, no medicine can be more adaptable as a curative agent than **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY**.

This famous Doctor's prescription has been recommended for over 40 years, and is today just as successful. Restores a healthy appetite. Cleanses the blood. Strengthens the nerves. Regulates stomach and liver. Demand the original.
